> SP 210SF / SP 212SFNw 22 ppm BrW

Think simple

The RICOH SP 210 series combines high productivity with ease of use in a compact package. Compact enough to fit on a desktop, and so quiet that it goes unnoticed, the single function series RICOH SP 210/ SP 212Nw is the ideal A4 black & white printer for small and home offices. A fast print speed, colour scanning and high speed G3 faxing enhance small/home office performance. The multi function series RICOH SP 210SU/ SP 212SNw/ SP 210SF/ SP 212SFNw is extremely easy to operate via the user-friendly 4-line LCD panel and everything can be done from the front of the device. ID card copy is another time-saving feature allowing you to copy both sides of an ID card onto one side of paper. You can also send print data directly from a smart device such as a smartphone or tablet. To top it off, paperless fax reception, manual double-sided printing and a high-yield, all-in-one print cartridge reduce your overall costs.

- Space saving
- Fast: 22 pages per minute
- High resolution: Max 1200 dpi
- ID card copy & colour scanning
- Manual double-sided printing & PCL support

NEW RICOH SP 210 SERIES

Versatile functions that meet diverse business needs.

Compact enough to fit in small spaces

Thanks to their compact size, these printers can squeeze in anywhere, so you can get the most out of your office space. With their stylish design, they're the perfect fit for today's office décor.

Toner Save Mode cuts printing costs

Toner Save Mode is an effective way to keep printing costs down by printing with less toner than usual. This is convenient when printouts are needed for internal viewing only.

Streamlined paper path keeps jobs printing smoothly

Thanks to Ricoh's advanced MFP technology, these printers have a streamlined paper path that reduces strain on the paper and minimizing paper jams.

Flexible networking (Network & Wireless models)

With Ethernet and Wi-Fi networking models, the SP 210 series is equipped with full connectivity option for your business needs.

Front-opening design makes it easy to replenish paper and perform other everyday operations

These printers are designed to open from the front for toner replacement and paper replenishment. In the unlikely event of a paper jam, you simply open the front panel and remove the jammed paper by hand. Even if the jam is at the back, opening and closing the panel causes the paper to be discharged automatically.

Easy maintenance

This new printer is designed for easy replenishment with Ricoh original toner for easy maintenance and low running cost.

RICOH SP 210SF/ SP 212SFNw/ SP 210SU/ SP 212SNw/ SP 210/ SP 212Nw
